FULLFORCE CLOTHING

Regardless of the sport, whether you play at international or entry level, FullForce Clothing teamwear is custom made for your chosen sport and tailored for your team. FullForce Clothing utilises state of the art manufacturing facilities and incorporates exclusive performance fabric technologies.

We have a dedicated distribution network and customer service team which allows us to provide a unique teamwear purchasing experience. Our involvement and understanding of team sports has enabled us to develop quality team uniforms regardless of the sport.

Major advancements in the sportswear apparel industry have been made over the past decade and FullForce Clothing Sportswear is no different. In particular, sublimated sportswear has made a real surge and you have more than likely seen sublimated gear used in most top level sports.

Sublimation is the process of using heat-sensitive inks to print graphics and text onto specific paper that is then pressed onto the fabric where the ink is converted from a solid to a gas without going through the liquid phase. This means that when the ink is bound to the fabric, it literally becomes a part of the fabric, rather than it sitting on top of it like a traditional screen print or heat transfer.

The beauty of sublimation is in its flexibility which is one of its many advantages.

You can transfer digital images directly from a computer generated design to your garment, so colours, patterns, logos, numbers, names, imagery, etc, can all be included in the one print process.

Another advantage is that minimum order quantities for sublimated garments are 10 units and lead times are 4 weeks. Minimum order quantities and lead times for other cut & sew items can vary from item to item depending on the production process involved.

Repeat orders are also quick and easy to reproduce as all information is stored electronically making the replication of garments efficient and accurate.

If you are in need of assistance with your custom design, just contact us and our designers will be more than happy to help.

PAGE 1

RUGBY

Our team have been busy behind the scenes developing our new fits and fabrics for 2016 & 2017. The new rugby fabric is sensational. It can include silicon embossing, reflective prints and carbon material panels. The new fit is better than previous with body mapping, carbon infused, breathable panels. We can add GPS pockets, lycra hem and sleeve cuff lines and in addition offer 3 different contrast stitching options.

These new fabric and style refreshments are cutting edge within the industry.

RUGBY - JERSEYS

PIPING

We are a locally owned and operated brand specialising in be-spoke custom sports uniforms. Our founders come from sport pedigree and thrive at the technology available to assist you as athletes regardless of your chosen discipline. Gone are the days when sporting apparel was heavy and cumbersome.

Previously, the only technical fabrics were produced in Italy, USA and France. Now, parts of Asia lead the way in new R&D advancements and technology, making performance garments accessible to all in a cost competitive manner.

DETAILING

All football shirts have tailored bottom hems with lycra binding and side panels with flatlock or 3D spreader contrast detail stitching.

FEATURES

1. All football uniforms are full sublimation with cut & sew panels.
2. Logos are embroidered or sublimated on all garments.
3. We can also do piping trim between panels.

BASKETBALL

Today's custom basketball uniforms feature a wide range of technical fabrics that maximize game play and are designed to provide additional features such as breathability, strength and moisture management with wicking capabilities, odour control and excellent comfort.

The AeroMax fabric range has special fibres that are able to draw sweat away from the body by wicking it from the area of concentration to a wider area of the material. By dispersing the moisture over this larger area there is more contact with air allowing the fabric to dry quicker.

P.E./TRAINING

SPORTS POLOS

INFORMATION

We can offer ladies sports polo shirts in stock solid dyed fabrics or in sublimation with cut and sew panel options. Knitted collars and cuffs are also available upon request. We have two styles in men's polo shirts, Sport fit being more fitted and tailored to suit, and our standard cut being suitable for all body shapes. Both options can be manufactured to suit in full sublimation or a mix of solid dyed with contrast sublimation panels.

P.E./TRAINING - TRACKSUITS

INFORMATION

We have a number of tracksuit patterns that you can choose from. We have approximately 55 stock colours in Micro-fibre polyester with stretch. The fabric has an amazing 1000PSI water resistant, soft touch process for more flexibility and freedom of movement. We can also offer fully sublimated tracksuits in your required design and colour.

ARTICLE NO
SWH 0175

FEATURES

1. Two lining options, Eyelet or single jerseys
2. Full knee zippers.
3. Zip pockets on pants and jackets.
4. Detachable hoods if required.
5. Waist bungy and toggles.

JACKET & TIGHTS

Ladies training gear is manufactured from Polyester Nylon or polyester spandex, tailored to fit the body.

FEATURES

1. Reflective trim.
2. Body mapped side panels.
3. Colour coded flat lock stitching or 3D spreader stitching.
4. Carbon panels complimenting the solid dyed body fabric.
5. Full sublimation available.

JACKET & SMOCK

FEATURES

1. Lined or unlined.
2. Water resistant fabric.
3. Spandex cuffs and collar for comfort.
4. Adjustable waist bungy and toggle.
5. Around 55 colour options to choose from.

SHIRT & SINGLET

INFORMATION

Sports training T-Shirts and singlets are totally custom made and fully sublimated to your colours and design. Cut and sew panel options available. Three outstanding fabric options to select from or mix and match using two different fabrics in the one garment to get that unique look and feel.

PAGE 16

HOCKEY

Play well, look your best! It is common knowledge that if you look smart you feel confident, and when confident you give your best!

Uniforms are not only for identity, they can now bring the best out in your performance. We will work with you to understand your team dynamic, manufacturing a uniform that will bring out the best in your players.

DESIGN

Cricket Pants are made from medium weight polyester. It is complimented with spandex to allow free movement stretch to the traditional hard wearing polyester material, which means they are perfect for sliding in the outfield. Like the shirts, they can be made in traditional white or sublimated to the customers' requirements. These are offered fully sublimated or with breathable mesh panels sewn in complimented with flat Lock or 3D stitching detail. We can supply cricket pants to you without the legs being hemmed so that your players can adjust them to best suit their own requirements. We can manufacture cricket tops and pants produced from our patterns and incorporate your design and logos.

ATHLETICS

High performance training wear which improves body stability and posture, while reducing muscle vibration through high compression. Strategically placed Thermoplastic Polyurethane (TPU) Power bands work with the body to store energy which would normally be lost, and returns this to simplify explosive movements. A full range of athletics uniforms custom made in your club, team or regional colours. All styles offered in ladies and men's cuts.

FEATURES

1. Lycra material.
2. Elastic Interface.
3. Reflective detailing.
4. Mesh bib straps.
5. Silicone leg gripper.

ARTICLE NO
SWH 0333

INFORMATION

This set of cycling bib shorts combine a flexible fit and breathable surface to craft a comfortable cycling accessory that help to drive performance.

The bib shorts are constructed using Lycra, which offers a fully flexible design allowing a wide range of movement when riding, granting an exceptionally comfortable fit that is supportive without being restrictive.

This design is further bolstered by the addition of 'Elastic Interface', a padding system integrated within the base of the bib shorts that grants an unequalled level of comfort. Together with silicon elastic leg cuffing and moisture wicking fabrics this garment is really easy to justify.

CUSTOM BRANDING

Design/Artwork

Have a great idea for a design but no idea how to produce it? Let our experienced team take care of that for you, all you need to do is provide us with a sketch or instructions and we can develop for you.

Printing

We prefer to receive your artwork in the following vector formats

Corel Draw – .cdr

Versions up to X6 and fonts should be converted to curves

Illustrator – .ai or .eps

Versions up to CS6 and fonts should be converted to outlines

Embroidery

Vector Files: .cdr, .ai, .eps

Raster Files: .jpeg/.jpg, .gif, .png, .bmp, .tif, .pdf

NUMBERS, FONTS & EMBROIDERY

NAMES/NUMBERS

These are great when every garment needs a different name or number, also a great option for application on nylon jackets, bags etc.

We have a large range of colours and fonts for you to choose from. Custom Fonts and numbers are available on request.

ABCDEFGHIJK 0123456789 1.

ABCDEFGHIJK 0123456789 2.

ABCDEFGHIJK 0123456789 3.

ABCDEFGHIJK 0123456789 4.

ABCDEFGHIJK 0123456789 5.

We offer a full embroidery service.

We can embroider your logo, or name in almost any size, colour and place on your garment or product.

We use the latest machinery with the capacity to embroider 36 garments at any one time.

We pride ourselves on being able to do large volumes with quick turnarounds.
